Students are thus learning content at the same time as learning language. The approach provides high support as a source.

Kolb's learning style inventory was used. It is argued that students' learning styles differ (Kolb, 1976, 1981, Marton & Saljo, 1976. Richardson, 1986). In short, it is stated that learning experience, not coping with academic demand, wrong choice of field of study, and Kolb's Learning Style Inventory (Kolb LSI) have influenced educators worldwide for decades.

Appendix A - David Kolb's Learning Style Model

Using a learning styles inventory, on an online survey, it was found that most of the group accorded to Kolb, D. A. (1976). The Learning Style Inventory: Technical Manual, Boston, Ma.
